

PROFESSIONALISM & EXPERTISE GUARANTEED

All our staff are trained and experienced in the provision of horticultural services. We welcome enquiries from residential customers and corporate organisations. Many customers know exactly what they are looking for whilst others require professional advice.

The colours and effects of a well-planned horticultural display can brighten our lives and enhance the beauty of our gardens and surroundings. From cottage gardens to municipal car parks, amazingly beautiful results can be achieved. Our creative team can help you to decide on the most suitable options for your surroundings.

If you have always dreamed of relaxing to the sound of water gently trickling through an ornate rock pool or perhaps you want a low maintenance gravelled shrub garden, then Brighstone Landscaping can help you develop your ideas and achieve the desired affect.

We are pleased to undertake any garden works, no matter how large or small. Our team can also advise on the requirements for specialist gardens, such as oriental gardens and historical period gardens. We can also obtain particular plant species, including those from Europe, to meet your requests.

Our quality assurance comes from listening to our customers, developing ideas and delivering results that delight.
